## Find and locate a document

I consult the online catalog specialized in Earth and Universe sciences at : [https://bibliotheca.oca.eu/biblio/pmb3.0/opac\\_css/](https://bibliotheca.oca.eu/biblio/pmb3.0/opac_css/).

I click on the button "+" to the left of the title that interests me to unfold the instructions. I note the number and the geographical location

With some exceptions, doc. are arranged :

- in Nice Mont-Gros Library : by inventory number (Level minus 1)

- in Sophia Library : by author followed by a serial number (reading room A213)
